Modest Proposal

Already one prime attribute in place,
with the famous shrink-wrapped million
in the duffel bag. A little much

for smaller states,where
bribes are in proportion,but

never mind. And the Taj
Mahal embassy a-building will

prove one exquisite capital. Plus
every kind of fast food slot-
ted in the Green Zone. What

am I driving at?
Iraq as 51st State. And

the ‘hoodies even
killing themselves off!
Same MO as in America cities.

The remainder can be taught our
brand of democracy,or bought.

Presently we’re making them an offer
they cannot refuse. Since it’s Win-Win,

then welcome 51! Looking forward
to your premiere football team!
